Subject: [CEG] Student Exchange Programme (SEP) Application for AY2019/2020 Round 1: 27 August 2018 – 16 Sept 2018

Dear CEG Students,

Please be informed that SoC is administering SEP for CEG. Round 1 of application for SEP in AY2019/2020, will open from **27 August 2018 – 16 Sept 2018**.

1. SEP Eligibility

The general guideline is that students should have a Minimum CAP of 3.0 and completed **at least** two semesters of studies. Please refer to: <http://www.nus.edu.sg/iro/prog/sep/before-exchange.html> for the detailed description of SEP eligibility.

Note: CEG students are recommended to go for SEP in year 3 (i.e. apply in Year 2) as:

- a) Numerous core modules are scheduled for Year 2.
- b) Students who wish to go for SEP in semester 2, AY19/20, will have to plan for six-months IA in semester 1, AY19/20 (and vice versa).
- c) While CG4002 (Computer Engineering Capstone Project) will be offered in both semesters, it is likely students on SEP will have to do CG4002 (8 MCs) in Year 4. Unless an equivalent module with close match to CG4002 syllabus and credits weightage is offered at the Partner University, CEG students are strongly encouraged to take the capstone project at NUS.
- d) CEG students (AY17 intake & after) are required to do at least 8 MCs of technical electives (out of 20 MCs) at NUS.

Please refer to <http://www.ceb.nus.edu.sg/sep/> for more information.

2. SEP Places Available for CEG Students

Please refer to the attached file (*ref: CEG_AY1920 Round 1 Places .pdf*) for the list of available places in Round 1. This will be the same list that you can view on the Student Information System.

You may wish to take note on the following:

- Places or universities that are not reflected on the list mean they are **not available** for CEG students to apply.
- The quota allocated to CEG is separated from that to SoC or FoE. You would **not** be able to apply for SoC or FoE places.
- DDP students are to apply thru their home faculty.
- As students are to complete at least two semesters of studies, freshmen can only start to apply in Round 2, after this semester's results release.
- Please ensure that you have read through Partner Universities' information carefully to assess if the choice of partner universities is suitable for you.

3. How to apply

Applications are to be submitted online via Integrated Student Information System (**Navigation Path: Integrated Student Information System > Self Service > Global Education > External Study Application**).

Please take the time to read through GRO or SoC SEP information sites *before* submitting an application.

To understand more on our partner universities, you can visit the websites below:

- University-wide SEP Partner Universities:
<http://www.nus.edu.sg/iro/doc/pub/eginternational17.pdf>
- Faculty-wide SEP Partner Universities:
 - http://www.comp.nus.edu.sg/undergraduates/beyond_sep.html
 - <https://www.eng.nus.edu.sg/undergraduatestudies/study-abroad/student-exchange-programme-sep/list-of-pus/>

You may list up to 5 choices of partner universities but do consider the following (in no particular order) *prior*:

- a) Are there suitable modules to map back?
- b) Is the Academic calendar of the partner University suitable for you?
- c) Will there be potential problem(s) with the language of instruction?
- d) Will you be able to finance the SEP stint comfortably?

4. IMPORTANT NOTES:

- a) It is mandatory for you to submit your study plan (upload as supporting document) for all of your five choices of universities, otherwise your application will be deemed incomplete. Here's a sample template. You can draft it as a word/PDF document and upload as supporting document.

PU Module Code	PU module title	Mapped NUS module code	Mapped NUS module title

Do note that your study plan is not limited to the pre-approved list available on SIS. Should there is a module that you intend to read/map during your exchange and it is not on the pre-approved list, you have to check if this is offered by the partner university and access yourself if there is sufficient module content overlapping (at least 70%). If you felt that there is sufficient module contents overlapping, you can add this to your study plan. There is no need for you to submit module mapping requests as this process will only start after you have been offered a SEP place. For more information, you can refer to

<https://www.comp.nus.edu.sg/programmes/ug/beyond/module/>

- b) Applicants are required to at least one interview and it is mandatory for all students to go thru **interview round 1** so that we can assess your suitable for the exchange programme. The interview will be scheduled on **24 and 25 September 2018** and you will be asked to select for the interview slot in a separate email later on. You may be asked to attend a second interview thereafter.

- c) An admin fee of **\$300** will be imposed for any withdrawal from SEP once you have accepted the internal offer. Therefore, you are reminded to consider carefully before accepting the internal offer.

5. NUS International Exchange Day 2018 and SOC-SEP Talk

NUS International Exchange Day 2018 will be held on 29 August 2018, Wednesday at Shaw Foundation Alumni House. If you want to find out more about SEP and international opportunities available, please join us at the event!

In addition to the International Day 2018, a SEP talk will be held exclusively for all SOC students! If you intend to apply for AY2019/2020 SEP, please join us at the SOC-SEP talk on **12 September 2018, 4pm to 5pm @ Computing 1, Seminar Room 1 (SR1), #02-06**. You can make use of this talk to find out more about SEP, the application period, procedures etc. Please click [here](#) to register for the talk.

Should you need further clarifications, please do not hesitate to contact me at comwpd@nus.edu.sg.

Thank you.

Best Regards
