This email is meant for CEG3 students of AY17 intake.

Dear CEG3 Students,

Please take note of the following important announcements regarding module registration:

1. **Module Registration via ModReg**
   With effect from AY19/20, module registration will be done via [ModReg@EduRec](https://myEduRec> Academics > Module Registration). No more bidding via CORS.
   - Please look through [the User guide](#) and/or [video](#), to learn how to use the ModReg.
   - Please note the various dates for each module selection round. Round 1 of ‘Select Modules’ will start tomorrow, 25 July 2019.
   - Refer to [the website](#) for the detailed information of how the rules-driven, priority-based allocation work.

   - Also, if you still haven’t, refer to [the user guide for the Academic Declaration](#). You need to complete your Academic Declaration before you can access ModReg.

   **Note:**
   a) It is **Not** necessary to declare your preferred CEG concentration via ‘Specialisation’ or ‘Tracks’ (Both are not applicable to CEG). Anyway, CEG students will not/should not be able to select either in ModReg as they are not configured for student’s selection.
   b) For ‘Specialisation’, there are only two specialisations applicable for CEG AY17 intake – IoT and Robotics. Application has already closed last month.
   [If necessary, refer to my earlier email blasts dated 3 June 2019 and 8 May 2019, with Subject ‘Internet of Things (IoT) or Robotics Specialisation: Apply from 3 - 16 June 2019’]

2. **Core modules**
   Refer to the [recommended schedule](#) (as per your intake year to NUS).

   If you fulfil the respective core module’s pre-requisite(s), please register/(‘Select Module’) from Round 1 onwards.

<table>
<thead>
<tr>
<th>Module</th>
<th>Tutorial</th>
<th>Lab</th>
</tr>
</thead>
<tbody>
<tr>
<td>CG3207</td>
<td>N.A.</td>
<td>Select Tut/Lab from 7 – 15 Aug (preferably in Round 1 on 7 Aug)</td>
</tr>
<tr>
<td>CS3230</td>
<td>Select Tut/Lab from 7 – 15 Aug (preferably in Round 1 on 7 Aug)</td>
<td>N.A.</td>
</tr>
<tr>
<td>EE4204</td>
<td>Packaged lecture &amp; tutorial - ‘tied’</td>
<td>To be arranged offline by lecturers</td>
</tr>
<tr>
<td>EG2401A</td>
<td>Select Tut/Lab from 7 – 15 Aug (preferably in Round 1 on 7 Aug)</td>
<td>N.A.</td>
</tr>
</tbody>
</table>

- CG3207 is only offered once per academic year, in semester 1 (as an evening module).
- As informed earlier, CG4002 (8 MCs) will be first offered (only) in AY19/20, Sem 2.

**NOTE 1:** It is the students’ responsibility to ensure there are no clashes in timetable (lecture, tutorial and lab) for all the modules.

**NOTE 2:** Applicable for students who have not passed Year 1 and/or 2 core modules

<tr>
<td>Other CEG core modules</td>
<td>Select Module in Round 1. If a particular module is not available, email me for further instructions. You are highly recommended to read/repeat the year 1 &amp; 2 core/fundamental modules ASAP.</td>
</tr>
</tbody>
</table>

**NOTE 3:** Workload Policy
- For students with a CAP of more than or equal to 2.0, the maximum workload (pre-allocated AND selected modules) is 23 MCs for Rounds 1 and 2, and 25 MCs for Round 3. This means that students can select up to 23 MCs (inclusive of pre-allocated modules) for Rounds 1 & 2, and up to 25 MCs from Round 3 onwards.
- For students with a CAP of less than 2.0, the maximum semestral workload is 20 MCs for all selection rounds. This means that you cannot exceed a workload of 20 MCs in the semester.
- The minimum semestral workload is 18 MCs.

**NOTE 4:** You are advised not to overload yourself by taking more than the recommended workload. If you still wish to increase your semestral workload to above 20 or 25 MCs, you should email the following information to your Year 3 Coordinator A/Prof Bharadwaj Veeravalli elebv@nus.edu.sg & cc. me cegcwn@nus.edu.sg:
  i. Total MCs you planned to take in sem 1
  ii. Supporting reasons for exceeding maximum workload in sem 1
  iii. Sem 1 workplan (module code, title and MCs for the respective modules)
  iv. Personal details (name, student no., course code, current CAP)

Please note that even if you are approved to take extra MCs, you can only select module from Round 3 onwards.

3. CEG Technical Electives
If you fulfil the respective CS/EE-coded module’s pre-requisite(s), you may register (via Select Module) from Round 1 onwards.
Note: IF any timetable clash, please give higher priority to core modules.

You are encouraged to read modules hosted by CS/ECE which are listed as Technical Electives (TEs) under the six CEG concentrations.

Cut and paste from TE page, “… These modules may come from any of the concentrations. While there is no necessity, students may opt to focus in a particular concentration. To do so, a student should read at least 16 MCs of technical electives from the same concentration…”
Please note that reading at least 16 MCs of TEs in the same concentration does NOT constitute formal requirements for 'specialisation', so, it will NOT be reflected in the transcript or degree scroll. Nonetheless, to encourage students to read modules listed under the six CEG concentrations, students who passed at least 16 MCs of TEs from the same concentration will be awarded a certificate upon request. Please look out for the email blast in Year 4 (in March or Sept) and respond by the stipulated deadline.

If you are unable to secure a TE in Round 1, you may:
  a) try again in Round 2 (31 July), and/or
  b) try again in Round 3 (7 Aug), when queues merged (if applicable), and/or
  c) submit appeal [Type: “Unable to secure module” after Round 3. If I’m not mistaken, this correct appeal type will only be available from 1201hrs on 8 Aug 2019 (Thurs).

Please do not email me/module host department to appeal/request for pre-allocation of CS/EE-coded TEs; not possible. Please be flexible in your choice of TEs.

4. General Education Modules (GEM) and Unrestricted Elective Modules (UEM)
Students who wish to read GEM and/or UEM have to ensure that the timetables of these modules do NOT clash with the timetable (lecture, tutorial, lab AND exam) of their core modules. Please refer to the list of modules available and GE website for more details. You can Select Module for these GEM and/or UEM from Round 2.

5. CEG3 Briefing
There won’t be any joint department briefing for CEG3 students (owing to poor attendance from past AYs since many Year 3 students are away on IA/SEP/NOC). Nonetheless, if you still haven’t, please review the slides and webcast of the last briefing on 21 Feb 2019.

6. Important Websites
Please refer to the following websites for important information:
- CEG Third Year Students website
- Programme Requirements and Technical Elective Rules
- S/U Policy
- AFG/FFG Checklists
- Examination Timetable: Please check for timetable/examination clashes using NUSMods before selecting your modules.

For enquiries, email me at cegcwn@nus.edu.sg. PS: Type my email address instead of searching by name. There’s a student with the same name.

You are reminded to check and clear your NUSNET email regularly. For ease of correspondence, please retain the email history and sign-off with your name and student number. FYI, emails sent from students’ personal email accounts have been (randomly) routed to my spam/junk folder (which I don’t check).

Regards,
Winnie
