This email is meant for CEG4 students of AY16 intake.

Dear CEG4 Students,

Please take note of the following important announcements regarding modules registration:

1. **Module Registration via ModReg**
   With effect from AY19/20, module registration will be done via ModReg@EduRec (myEduRec > Academics > Module Registration). No more bidding via CORS.
   - Please look through the User guide and/or video, to learn how to use the ModReg.
   - Please note the various dates for each module selection round. Round 1 of ‘Select Modules’ will start tomorrow, 25 July 2019.
   - Refer to the website for the detailed information of how the rules-driven, priority-based allocation work.

   - Also, if you still haven’t, refer to the user guide for the Academic Declaration. You need to complete your Academic Declaration before you can access ModReg.

   Note:
   a) It is Not necessary to declare your preferred CEG concentration via ‘Specialisation’ or ‘Tracks’ (Both are not applicable to CEG). Anyway, CEG students will not/should not be able to select either in ModReg as they are not configured for student’s selection.
   b) For ‘Specialisation’, there isn’t any specialisation applicable for CEG AY16 intake (& prior).

a) **CG4001 BEng Dissertation/FYP**
   CG4001 has been pre-allocated to students who are continuing/starting FYP. Please verify tomorrow. If otherwise, please inform me.

b) **EG2401 Engineering Professionalism**
   If you have not fulfilled EG2401 (a Major requirement for AY16 intake & prior), do Select Module from Round 1 onwards and Select Tut/Lab for a tutorial from 7 – 15 Aug (preferably in Round 1 on 7 Aug).

c) **Other Upper Year Core Modules – CG3002, CG3207, EE3031 and EE3204**
   If you have not fulfilled any of the core module(s), select from Round 1 onwards. Some notes:
   - CG3002 will be last offered in Sem 1, AY19/20.
   - CG3207 will only be offered once per academic year, in semester 1 (as an evening module).
   - EE3204 has been recoded to EE4204 Computer Networks. EE4204’s pre-req is ST2334. EE4204 will remain as part of CEG Major requirements. If you have yet to pass EE3204, please select EE4204.

After you have successfully secured the module(s), Select Tut/Lab from 7 – 15 Aug (preferably in Round 1 on 7 Aug), for CG3002 lab and CG3207 lab.

d) **Other Core Modules**
   If you have not pass any other core modules, Select Module from Round 1 onwards. **Do NOT delay such module any further.** If a particular module is not available, email me for further instructions.

e) **CEG Technical Electives**
   If you fulfil the respective CS/EE-coded module’s pre-requisite(s), you may Select Module from Round 1 onwards.

   Note: IF any timetable clash, please give higher priority to core modules.
You are encouraged to read modules hosted by CS/ECE which are listed as Technical Electives (TEs) under the six CEG concentrations.

Cut and paste from TE page, “... These modules may come from any of the concentrations. While there is no necessity, students may opt to focus in a particular concentration. To do so, a student (AY14 – AY16 intakes) should read all three technical electives from the same concentration…”

Please note that reading all three TEs in the same concentration does NOT constitute formal requirements for 'specialisation', so, it will NOT be reflected in the transcript or degree scroll. Nonetheless, to encourage students to read modules which are listed under the six concentrations, students who passed all three TEs from the same concentration will be awarded a certificate upon request. Please look out for the email blast in your graduating semester (in March or Sept) and respond by the stipulated deadline.

If you are unable to secure a TE in Round 1, you may:
   a) try again in Round 2 (31 July), and/or
   b) try again in Round 3 (7 Aug), when queues merged (if applicable), and/or
   c) submit appeal [Type: “Unable to secure module] after Round 3. If I’m not mistaken, this correct appeal type will only be available from 1201hrs on 8 Aug 2019 (Thurs).

Please do not email me/module host department to appeal/request for pre-allocation of CS/EE-coded TEs; not possible. Please be flexible in your choice of TEs.

f) General Education Modules (GEM) and Unrestricted Elective Modules (UEM)
Students who wish to read GEM and/or UEM have to ensure that the timetables of these modules do NOT clash with the timetable (lecture, tutorial, lab AND exam) of their core modules.
Please refer to the list of modules available and GE website for more details. You can Select Module for these GEM and/or UEM from Round 2.

g) Workload Policy
- For students with a CAP of more than or equal to 2.0, the maximum workload (pre-allocated AND selected modules) is 23 MCs for Rounds 1 and 2, and 25 MCs for Round 3. This means that students can select up to 23 MCs (inclusive of pre-allocated modules) for Rounds 1 & 2, and up to 25 MCs from Round 3 onwards.
- For students with a CAP of less than 2.0, the maximum semestral workload is 20 MCs for all selection rounds. This means that you cannot exceed a workload of 20 MCs in the semester.
- The minimum semestral workload is 18 MCs.
- You are advised not to overload (by taking more than the recommended workload). If you still wish to increase your semestral workload to above 20 or 25 MCs, you should email the following information to CEG Year 4 Coordinator Dr Colin Tan colintan@nus.edu.sg & c.c. me cegcwn@nus.edu.sg:
   i. Supporting reasons
   ii. Semester 1 & 2 workplan (module code, title and MCs for the respective modules)
   iii. Personal details (name, student no., course code, current CAP, total MCs passed to date)

Please note that even if you are approved to take extra MCs, you can only select module from Round 3 onwards.

As CG4001/Final Year Project (FYP) of 12 MCs is a two-semester module, you should account for it as 6 MCs in your workload for semester 1, AY19/20.
For students working on IIFYP, account for CG4001 as 12 MCs.

2. Apply for Graduation (AFG)
If you are graduating at the end of Semester 1, AY19/20, please Apply for Graduation (AFG) via EduRec from 25 Jul – 6 Sept 2019 (end of week 4).
[Navigation after login: Self Service > Degree Progress/Graduation > Apply for Graduation].
Do check that you have fulfilled all requirements to graduate, using the AFG/FFG checklist (as per your intake year). For students who cannot AFG via EduRec due to whatsoever reasons, please flag to me.

3. Compulsory CEG4 Briefing
A compulsory FYP cum Joint Department Briefing for ALL CEG4 Students has been scheduled on 8 Aug 2019 (Thurs), 1.30pm @ LT3. There will be no webcast so you should attend the session to know more about CG4001 assessments timeline and criteria, among other information.

PS: Even if you do not intend to start FYP until sem 2 (AY19/20), please also attend. There won’t be another of such briefing in January 2020.

4. Important Websites
You can refer to the following websites for important information
- CEG Final Year Students website (including links to check the modules’ timetable)
- AFG/FFG Checklists
- Programme Requirements and Technical Elective Rules
- Examination Timetable: Please check for timetable/examination clashes using NUSMods before selecting your modules.
- S/U Policy

For enquiries, email me at cegcwn@nus.edu.sg. PS: Type my email address instead of searching by name. There’s a student with the same name.
You are reminded to check and clear your NUSNET email regularly. For ease of correspondence, please retain the email history and sign-off with your name and student number. FYI, emails sent from students’ personal email accounts have been (randomly) routed to my spam/junk folder (which I don’t check).

Regards,
Winnie

Important: This email is confidential and may be privileged. If you are not the intended recipient, please delete it and notify us immediately; you should not copy or use it for any purpose, nor disclose its contents to any other person. Thank you.
