Dear CEG4 Students,

Please take note of the following important announcements regarding modules registration:

1. Module Registration via ModReg
With effect from AY19/20, module registration is done via ModReg@EduRec (myEduRec > Academics > Module Registration); no more bidding via CORS.
- If you still haven’t (for whatsoever reason), please refer to the ModReg User Guide for Students, to learn how to use the ModReg.
- Please note the various dates for each module selection round. Round 1 of ‘Select Modules’ will start on Thurs, 2 Jan 2020.
- Refer to the ModReg website for the detailed information of how the rules-driven, priority-based allocation work.

- Also, if you still haven’t, refer to the user guide for the Academic Plan Application/Declaration (APAD) and complete your Academic Plan Declaration Now, as it should be completed 24 hours before participating in the module registration exercise.
Please note that it is not necessary to declare your preferred CEG concentration via ‘Specialisation’ or ‘Tracks’. Anyway, CEG students will not/should not be able to select either (Specialisation/Track) via APAD (as they are not configured for student’s selection).
For ‘Specialisation’, there are only two specialisations applicable for CEG AY17 intake – IoT and Robotics – for which application (outside APAD) has already closed in June 2019. There isn’t any specialisation applicable for CEG AY16 intake (& prior).

a) CG4001 BEng Dissertation/FYP
CG4001 has been pre-allocated to students who are continuing/starting FYP. Please verify via ModReg. If otherwise, inform me.

b) EG2401/A Engineering Professionalism
Due to curriculum change, EG2401 (3 MCs) will be phased out after Sem 2, AY19/20.
If you have not fulfilled EG2401 (a Major requirement for AY16 intake & prior), Select Module from Round 1 onwards and Select Tut/Lab for a tutorial from 14 – 20 Jan (preferably in Round 1 on 14 Jan). The same instructions apply for EG2401A (2 MCs), a Major requirement for AY17 intake & after.

c) Other Upper Year Core Modules – CG3002/CG4002, EE3031 and EE3204/EE4204
If you fulfil the respective prequisites, register/Select Module from Round 1 onwards and Select Tut/Lab from 14 – 20 Jan (preferably in Round 1 on 14 Jan).

Some notes:
- CG3002 (6 MCs; Major requirements for AY16 intake & prior) has since ceased offer while CG4002 (8 MCs; Major requirements for AY17 intake & after) will be first offered in Sem 2, AY19/20. After you have successfully secured the module, please select a CG4002 lab in Select Tut/Lab Round 1 on 14 – 15 Jan. This is to facilitate the grouping of students (within the same lab class) by CG4002 coordinator, before the second lecture on 21 Jan.
- EE3204 has been recoded to EE4204 Computer Networks. EE4204’s pre-req is ST2334. EE4204 will remain as part of CEG Major requirements. If you have yet to pass EE3204, please select EE4204.

d) Other Core Modules
If you have not pass any other core modules, Select Module from Round 1 onwards. **Do NOT delay such module any further.** If a particular module is not available, email me for further instructions.

e) CEG Technical Electives
If you fulfil the respective CS/EE-coded module’s pre-requisite(s), you may Select Module from Round 1 onwards.  
**Note: IF any timetable clash, please give higher priority to core modules.**

You are encouraged to read modules hosted by CS/ECE which are listed as Technical Electives (TEs) under the six CEG concentrations. Refer to the respective CEG TE webpages for **AY16 intake (& prior), OR AY17 intake (& after).**

Cut and paste from TE page, “… These modules may come from any of the concentrations. While there is no necessity, students may opt to focus in a particular concentration. To do so …”

Please note that reading all three TEs in the same concentration for AY16 intake & prior (OR at least 16 MCs of TEs from the same concentration, for AY17 intake & after) does NOT constitute formal requirements for ‘specialisation’, so, it will NOT be reflected in the transcript or degree scroll. Nonetheless, to encourage students to read modules which are listed under the six concentrations, students who passed all three TEs from the same concentration will be awarded a certificate upon request. Please look out for the email blast in your graduating semester (in March or Sept) and respond by the stipulated deadline.

If you are unable to secure a TE in Round 1, you may:
   a) try again in Round 2 (6 Jan), and/or
   b) try again in Round 3 (9 Jan), when queues merged (if applicable), and/or
   c) submit appeal [Type: “Unable to secure module” after Round 3. PS: This (correct) appeal type will only be available from 13 Jan (Mon), 0000 hrs. Submitting via the wrong appeal types will only result in further delays.

Please do not email me/module host department to appeal/request for pre-allocation of CS/EE-coded TEs; not possible. Please be flexible in your choice of TEs.

f) General Education Modules (GEM) and Unrestricted Elective Modules (UEM)
Students who wish to read GEM and/or UEM have to ensure that the timetables of these modules do NOT clash with the timetable (lect, tut, lab AND exam) of their core modules. Please refer to the list of GEMs available in Sem 2, AY19/20 via NUSMods and GE website for more details. You can Select Module for these GEM and/or UEM from Round 2.

g) Workload Policy
- For students with a CAP of **more than or equal to** 2.0, the maximum workload (pre-allocated AND selected modules) is 23 MCs for Rounds 1 and 2, and 25 MCs for Round 3. This means that students can select up to 23 MCs (inclusive of pre-allocated modules) for Rounds 1 & 2, and up to 25 MCs from Round 3 onwards.
- For students with a CAP of **less than** 2.0, the maximum semestral workload is 20 MCs for all selection rounds. This means that you cannot exceed a workload of 20 MCs in the semester.
- The **minimum semestral workload** is 18 MCs.
You are advised not to overload (by taking more than the recommended workload). If you still wish to increase your semestral workload to above 20 or 25 MCs, you should email the following information to CEG Year 4 Coordinator Dr Colin Tan colintan@nus.edu.sg & c.c. me cegcwn@nus.edu.sg:

i. Total MCs you planned to take in sem 2
ii. Supporting reasons for exceeding maximum workload in sem 2
iii. Sem 2 workplan (module code, title and MCs for the respective modules)
iv. Personal details (name, student ID., course code i.e. CEG4, current CAP, total MCs passed to date)

Please note that even if you are approved to take extra MCs, you can only select module (for the ‘extra’ MCs) from Round 3 (9 Jan) onwards.

As CG4001/Final Year Project (FYP) of 12 MCs is a two-semester module, you should account for it as 6 MCs in your workload for semester 2, AY19/20.

2. Apply for Graduation (AFG)
If you are graduating at the end of Semester 2, AY19/20, please Apply for Graduation (AFG) via EduRec from 2 – 31 Jan 2020 (Fri, Week 3).
[Navigation after login: Self Service > Degree Progress/Graduation > Apply for Graduation].
Do check that you have fulfilled all requirements to graduate, using the AFG/FFG checklist (as per your intake year). For students who cannot AFG via EduRec due to whatsoever reasons, please flag to me.

3. Important Websites
You can refer to the following websites for important information
- CEG Final Year Students website (including links to check the modules’ timetable)
- AFG/FFG Checklists
- Programme Requirements and Technical Elective Rules
- Examination Timetable: Please check for timetable/examination clashes using NUSMods before selecting your modules.
- S/U Policy
For enquiries, email me at cegcwn@nus.edu.sg. PS: Type my email address instead of searching by name. There’s a student with the same name.
Do note that tomorrow (31 Dec) is a University holiday while 1 Jan 2020 (Wed) is a public holiday, so please allow some time for us (i.e. the respective offices) to process/reply.

Last but not least, you are reminded to check and clear your NUSNET email regularly. For ease of correspondence, please retain the email history and sign-off with your name and student ID. Emails sent from students’ personal email accounts have been (randomly) routed to my spam/junk folder (which I don’t check).

Regards
Winnie

Important: This email is confidential and may be privileged. If you are not the intended recipient, please delete it and notify us immediately; you should not copy or use it for any purpose, nor disclose its contents to any other person. Thank you.
