   Module Registration is done via ModReg@EduRec (myEduRec > Academics > Module Registration). Please take note of the various dates for each module selection round as stated at the ModReg Schedule Module Selection Round 1 starts on **23 July 2020**. Refer to the website http://www.nus.edu.sg/ModReg/ for the detailed information. Please look through the User Guide and learn how to use the ModReg system before 23 July 2020.

   Please note that all students must declare their travel plans via the Overseas Travel Declaration (OTD) system before they are able to participate in the ModReg.

   You will also need to make your Academic Declaration before you can access ModReg. User guide can be found at http://www.nus.edu.sg/ModReg/docs/User-Guide-(Std)_AcadPlan_Decln.pdf Students are required to complete their Academic Plan declaration 24 hours before participating in the module registration exercise. Please note that for your Academic Plan Declaration, there is no need to declare any CEG ‘Specialisation’ or ‘Tracks’ (not applicable for CEG). You will not be able to select them in ModReg as they are not configured for your selection.

   Please refer to the Recommended Schedule for CEG students at https://ceg.nus.edu.sg/students/studyschedule/ [look under Recommended study schedule for CEG students (Student admitted to CEG1 in AY2020/21)] for the modules you are recommended to take in this semester.
Do check your NUS email account regularly for updates on module and tutorial registrations for the coming semester. All email correspondences will be sent to your NUS email only & not to your personal email.

You will be assigned to a Group e.g. C02- C11. You may refer to [https://ceg.nus.edu.sg/students/first_year/](https://ceg.nus.edu.sg/students/first_year/) > (C02-C11 grouping, Sem 1, AY20-21) for your grouping and look for the timetable of your assigned group.

As there is class size constraint on the number of students in each CS1010 online lab group, we do not allow students to request to switch to other lab groups (unless you can find a mutual swap with another student from other groups).

**NOTE 1:** Please refer to Point 3 above for the core modules that will be preallocated by the respective departments. Do not panic if you do not see the above allocated modules on 23 July as OUP will take some time to allocate the modules to all the students, the modules may reflected in your ModReg only on 30 July 2020. Email to engbox28@nus.edu.sg if you are not allocated the modules by 30 July.

**NOTE 2:** Results for QET will be released on 22 July. Students who are required to take (ES1000/ES1103) English modules may select a sectional group from Round 1 (23 July).
onwards. You are strongly advised to manage your timetable well and complete ES1103 in the current semester. GER1000 will be pre-allocated to you in Sem 3 after you cleared ES1103 in sem 1. This is especially for CEG students as you are required to take CS2101 in sem 3; and ES1103 is part of the pre-requisite for CS2101.

**NOTE 3:** 'A' level students without 'A' or 'H2' level Physics (or its equivalent) are required to take PC1222 as a bridging module, in semester 1 (which will be pre-allocated by OUP); please email me to highlight this (no 'A' level Physics or equivalent) if you have not done so. You will postpone CS1231 till another semester. You will follow C10 timetable schedule.

**NOTE 4:** The maximum workload is a total of 23 MCs in Sem 1 AY20/21. You are not allowed to overload yourself by taking more than 23 MCs of modules in the 1st semester. For students in special programmes (E-Scholars, DDP, USP etc.), the maximum workload will be capped at 27MCs. This means that only students in the above listed approved special programme will be able to register beyond 23MCs in Round 3.

The minimum semestral workload is 18 MCs. Refer to Undergraduate continuation and graduation requirements for details.

**NOTE 5:** Lectures & Tutorials will be conducted online, more details will be shared by the respective lecturers.
