Dear CEG2 Students,

Welcome to Semester 1, Academic Year 2020/2021!

Please take note of the following important announcements regarding module registration:

1. Module Registration System

Module Registration is done via ModReg@EduRec (myEduRec > Academics > Module Registration). Please take note of the various dates for each module selection round as stated at the ModReg Schedule Module Selection Round 1 starts on **23 July 2020**. Refer to the website [http://www.nus.edu.sg/ModReg/](http://www.nus.edu.sg/ModReg/) for the detailed information. Please look through the User Guide and learn how to use the ModReg system before 23 July 2020.

Please note that all students must declare their travel plans via the Overseas Travel Declaration (OTD) system before they are able to participate in the ModReg.

You will also need to make your Academic Declaration before you can access ModReg. User guide can be found at [http://www.nus.edu.sg/ModReg/docs/User-Guide-(Std)_AcadPlan_Decln.pdf](http://www.nus.edu.sg/ModReg/docs/User-Guide-(Std)_AcadPlan_Decln.pdf) Students are required to complete their Academic Plan declaration **24 hours before** participating in the module registration exercise. Please note that for your Academic Plan Declaration, there is no need to declare any CEG ‘Specialisation’ or ‘Tracks’ (not applicable for CEG). You will not be able to select them in ModReg as they are not configured for your selection.

Students will be tagged as ‘CEG2’ upon accumulating (at least) 36 MCs. With the Poly APCs and sem 1/first semester modules (based on average 20 MCs workload), all freshmen from Poly intake are hence tagged as ‘CEG2’.

You are still tagged as CEG2 now because you (or rather, most of you from AY19 Poly) have yet to pass 76 MCs (in order to be automatically retagged as CEG3).

2. Pre-allocation of Core modules

<table>
<thead>
<tr>
<th>AY19/20 intake</th>
<th>Modules pre-allocated</th>
</tr>
</thead>
<tbody>
<tr>
<td>CEG2 students</td>
<td>CS2113</td>
</tr>
</tbody>
</table>

**NOTE 1:** The core modules will be pre-allocated to you only if you have fulfilled their pre-requisites. Please refer to the Recommended Schedule for CEG students at [https://ceg.nus.edu.sg/students/studyschedule/](https://ceg.nus.edu.sg/students/studyschedule/) (look for Recommended study schedule for CEG2 Poly, AY2019/20 intake students) for the modules you are recommended to take in this semester.

**NOTE 2:** Please check ModReg account for the pre-allocation of either CG2271 or CG2027 & CG2028 by 31 July 2020. Due to limited quota for both modules, we will not allow for any switch between the modules unless you have strong justifications to do so.

**NOTE 3:** Workload Policy for first two Bidding Rounds

For students with a CAP of more than or equal to 2.0, the maximum workload (pre-allocated & selected modules) is 23MCs for Rounds 1 and 2, and 25MCs for Round 3 onwards. This means that students can select up to 23 MCs (inclusive of pre-allocated modules), up to Round 2 and up to 25 MCs, from Round 3 onwards.

For students with a CAP of less than 2.0, the maximum semestral workload is 21 MCs for all selection rounds. This means that you cannot exceed a workload of 21 MCs in the semester.

The minimum semestral workload is 18 MCs. Refer to [Undergraduate continuation and graduation requirements](https://ceg.nus.edu.sg/students/graduation/continuation/) for details.

*Many students often consider Year 2 the most difficult year and 4 core modules can sometimes feel like 5 or 6 modules (depending on your individual’s abilities). For*
students with low CAP, you are advised to spread out your modules evenly. For students who are on the borderline, you might even want to consider dropping one of the pre-allocated modules. Please email me regarding this (dropping of pre-allocated module).

**NOTE 4:** You are advised not to overload yourself by taking more than the recommended workload. If you still wish to increase your semestral workload to **above 21 or above 25 MCs**, you must do so prior the start of ModReg by emailing the following information to your **Year 2 Coordinator A/Prof Bharadwaj Veeravalli** (elebv@nus.edu.sg) & c.c. me (comlowmb@nus.edu.sg):

i. **Total MCs you planned to take in semester 1**
ii. **Supporting reasons**
iii. **Semester 1 workplan (module code, title and its respective MCs - please check against ModReg for the most updated MCs)**
iv. **Personal details (student ID #, course code, current CAP)**

Please note that even if you are granted the extra MCs, you can only select from **Round 3 onwards**.

### 3. Tutorial and Lab Groups Registration

<table>

<tr>
<td>ST2334</td>
<td>Select online tutorial group in ModReg on 12 Aug</td>
<td>No lab session</td>
</tr>
</tbody>
</table>
4. University Level Requirement (ULR) modules

Students are required to fulfill 5 General Education (GE) modules under the University Level Requirement (ULR).

GE Modules: 5 Modules, each of 4MCs
GER1000 - Quantitative Reasoning (QR) pillar
GEQ1000 - Asking Questions (AQ) pillar
GETxxxx - Thinking and Expression (T&E) pillar
GESxxxx - Singapore Studies (SS) pillar
GEHxxxx - Human Cultures (HC) pillar

More details on the new GE requirements can be found at GE website.

5. Important Websites

You can refer to the following websites for important information on:

- CEG Second Year Students website
- S/U Policy
- Pre-req chart for AY17-18 onwards

Students are not allowed to exercise S/U option on Engineering modules including those taken as unrestricted electives UEs (unless these are GEMs hosted by the Faculty).

- Recommended study schedules
- FFG checklists
- Examination timetable Please check for timetable and exam clashes before selecting for your modules.

For enquiries, you may contact me via comlowmb@nus.edu.sg.
P/S: You are reminded to check and clear your NUSNET email regularly. For ease of correspondence, please retain the email history and sign-off with your full name and matric number.

With Best Regards,
