

This email is meant for CEG2 students of AY19/20 direct intake and common Engineering students (of AY19/20 intake) streamed to CEG2 in AY20/21.

Welcome to Semester 2, Academic Year 2020/2021!

Dear CEG2 Students,

Please take note of the following important announcements regarding module registration:

1. Module Registration System

With effect from AY19/20, module registration is done via ModReg@EduRec ([myEduRec](#)> Academics > Module Registration); no more bidding via CORS.

- If you still haven't (for whatsoever reason), please refer to [the ModReg User Guide for Students](#), to learn how to use the ModReg.

- Please note the various dates for [each module selection round](#). Round 1 of 'Select Modules' will start on Wed, 30 Dec 2020.

- Refer to [the ModReg website](#) for the detailed information of how the rules-driven, priority-based allocation work.

2. Pre-allocation of Core modules

AY19/20 intake	Modules to be pre-allocated		
CEG2 students	CG2023	ST2334	Either CG2271 OR CG2027 & CG2028
Common Engrg students	CG2023	CG2027& CG2028	CS2101 & CS2113T

NOTE 1: The core modules will be pre-allocated to you only if you have **fulfilled their pre-requisites**. **Please verify via ModReg on 4 Jan to ensure the correct modules have been allocated to you.** Please refer to the Recommended Schedule for CEG students at <https://ceg.nus.edu.sg/students/studyschedule/> (look for Recommended study schedule for AY2019/20 intake students) for the modules you are recommended to take in this semester.

NOTE 2: If you want to **re-take** any year 1 core module(s), you are required to **select for the module(s) via ModReg** from **Round 1** onwards. You may contact me (comlowmb@nus.edu.sg) if you have further queries on re-taking these modules.

Please check the schedule to ensure that there are no timetable clashes with your year 2 core modules.

NOTE 3 : CS2101+CS2113T is twinned module and will be pre-allocated to Common Engineering students. Please refer to [Second Year students](#) for the schedule. There is class size constraint on the number of students in each group. **If you wish to request to switch to another group, please seek a mutual swap with your friend from another group before emailing me for swapping with your details.**

NOTE 4: Please check ModReg account for the pre-allocation of either CG2271 or CG2027 & CG2028 on **4 Jan 2021**. Due to limited quota for both modules, we will not allow for any switch between the modules unless you have strong justifications to do so.

NOTE 5: Workload Policy for first two Bidding Rounds

For students with a CAP of **more than or equal to** 2.0, the maximum workload (pre-allocated & selected modules) is 23MCs for Rounds 1 and 2, and 25MCs for Round 3 onwards. This means that students can select up to 23 MCs (inclusive of pre-allocated modules), up to Round 2 and up to 25 MCs, from Round 3 onwards.

For students with a CAP of **less than** 2.0, the maximum semestral workload is 20 MCs for all selection rounds. This means that you cannot exceed a workload of 20 MCs in the semester.

The minimum semestral workload is 18 MCs. Refer to [Undergraduate continuation and graduation requirements](#) for details.

Many students often consider Year 2 the most difficult year and 4 core modules can sometimes feel like 5 or 6 modules (depending on your individual's abilities). For students with low CAP, you are advised to spread out your modules evenly. For students who are on the borderline, you might even want to consider dropping one of

the pre-allocated modules. Please email me regarding this (dropping of pre-allocated module).

NOTE 6: You are advised not to overload yourself by taking more than the recommended workload. If you still wish to increase your semestral workload to **above 20 or above 25 MCs**, you must do so prior the start of ModReg by emailing the following information to your **Year 2 Coordinator A/Prof Bharadwaj Veeravalli** (elebv@nus.edu.sg) & c.c. me (comlowmb@nus.edu.sg). **Please do not submit your appeal for overloading via modreg as it will be rejected.**

- i. Total MCs you planned to take in semester 2
- ii. Supporting reasons for exceeding max. workload in sem 2
- iii. Semester 2 workplan (module code, title and MCs for the respective modules)
- iv. Personal details (student ID #, course code, current CAP)

Please note that even if you are approved to take extra MCs, you can only select module (for the 'extra' MCs) from Round 3 (7 Jan) onwards.

3. Tutorial and Lab Groups Registration

Module	Tutorial	Lab
ST2334	Select tutorial group in ModReg from 12-14 Jan	N.A.
CG2271	Select Tut from 12-14 Jan	Select Lab from 12-14 Jan
CG2023	Packaged lecture and tutorial; no need to Select Tut separately	Refer to ECE Lab Schedule and verify your allocated lab via ModReg
CG2027 (Wk 1-6)	Will be allocated on 13 Jan, following the same timing as your CG2028 tut	N.A.
CG2028 (Wk 7-13)	Select Tut from 12 – 18 Jan (preferably in Round 1 on 12 Jan). Only Common Engrg students have been allocated to T01/T03	Refer to ECE Lab Schedule and Select Lab from 12 – 18 Jan (preferably in Round 1 on 12 Jan). Only Common Engrg students have been allocated to B01

Note: Students wanting to swap CG2023 (pre-allocated) lab (for whatsoever reason) should look for mutual swap (themselves), otherwise please wait until Add/Swap (16 Jan 2021). **Email request without mutual swap will be ignored.**

If you have enquiries on the tutorial and lab group registration, please contact :

For CG2023, CG2027 and CG2028 : ECE dept, Ms Winnie Chua (cegcwn@nus.edu.sg)

For CS2101+CS2113T, CG2271 and ST2334 : SoC, Mr Low Mun Bak (comlowmb@nus.edu.sg)

4. CEG Technical Electives

If you fulfil the respective CS/EE-coded module's pre-requisite(s), you may register via 'Select Module' from Round 1 onwards.

Note: IF any timetable clash, please give higher priority to core modules.

You are encouraged to read modules hosted by CS/ECE which are listed as Technical Electives (TEs) under the [six CEG concentrations](#).

5. General Education Modules (GEM) and Unrestricted Elective Modules (UEM)

Students who wish to read GEM and/or UEM have to ensure that the timetables of these modules do NOT clash with the timetable (lect, tut, lab AND exam) of their core modules. Please refer to the [list of GEMs available in Sem 2, AY20/21 via NUSMods](#) and [GE website](#) for more details. You can Select Module for these GEM and/or UEM from Round 2

6. Important Websites

You can refer to the following websites for important information on:

- [CEG Second Year Students website](#)
- [S/U Policy](#)
- [CEG Recommended study schedules](#)
- [AFG/FFG Checklists](#)
- [Examination Timetable](#): **Please check for timetable/examination clashes using [NUSMods](#) before selecting your modules.**

For enquiries, you may contact me via comlowmb@nus.edu.sg.

P/S: You are reminded to check and clear your NUSNET email regularly. For ease of correspondence, please retain the email history and sign-off with your full name and matric number.
