Dear CEG3 Students

Please note the following important announcements regarding modules registration:

1. Module Registration via ModReg
Module registration is done via ModReg@EduRec (myEduRec > Academics > Module Registration).
- If you still haven’t, refer to the Academic Plan Declaration page (and email below), and complete your academic plan declaration 24 hours before accessing ModReg. Note:
  It is Not necessary to declare your preferred CEG concentration via ‘Specialisation’ or ‘Tracks’ (Both are not applicable to CEG). Anyway, CEG students will not/should not be able to select either in ModReg as they are not configured for student’s selection. For ‘Specialisation’, there are only two specialisations applicable for CEG (AY17 intake & after) for which application (outside APAD) has already closed in June. The next round will likely be around June 2022.

- Please refer to the ModReg User Guide and/or Videos, to learn how to use the ModReg.
- Do note the various dates for each module selection round. Round 0 of ‘Select Modules’ will start tomorrow, 7 Dec 2021 (Tues).
- Refer to the ModReg website for the detailed information of how the rules-driven, priority-based allocation work.

2. Core Modules

<table>
<thead>
<tr>
<th>AY20/21 Poly</th>
<th>Modules to be pre-allocated</th>
<th>Via ‘Select Module’</th>
</tr>
</thead>
<tbody>
<tr>
<td>Students passed CG2028 (i.e. Exempted CG1111)</td>
<td>CG2023</td>
<td>-</td>
</tr>
<tr>
<td>Students pending CG2028 (i.e. Not exempted CG1111)</td>
<td>CG2023</td>
<td>CG2027</td>
</tr>
</tbody>
</table>

NOTE 1: The core modules will be pre-allocated to you only if you have fulfilled their pre-requisites. Please verify via ModReg on 29 Dec (Round 1) to ensure the correct modules have been allocated to you. Note that CG2027 will only be pre-allocated by Round 1 (29 Dec). For Round 0, please manually reserve its lecture on Tuesdays 9-12nn, in mini-semester 2A (before selecting other modules).

It is the students' responsibility to ensure that there are no clashes in timetable (lecture, tutorial, lab and exams) for all the modules. Students are NOT allowed to read modules with clashing timetable.

NOTE 2: For students who have not passed any Year 1 and/or 2 core modules, please register via ‘Select Module’ in Round 0. You are highly recommended to read/repeat the year 1 & 2 core/fundamental modules ASAP. If a particular module is not available, email me for further instructions. For CG2271 or CS-coded core modules, please check with Mr Low lowmb@nus.edu.sg directly.

NOTE 3: For EG2401A (2 MCs), please refer to OUP wiki page, and Select Module accordingly. If any queries, please email OUP/ENG ModReg Enquiries engbox28@nus.edu.sg directly.

NOTE 4: Workload Policy
- For students with a CAP of more than or equal to 2.0, the maximum workload (pre-allocated AND selected modules) is 23 MCs for Rounds 1 and 2, and 25 MCs for Round 3 onwards. This means that students can
select up to 23 MCs (inclusive of pre-allocated modules) for Rounds 1 & 2, and up to 25 MCs from Round 3 onwards.
- For students with a CAP of less than 2.0, the maximum semestral workload is 20 MCs for all selection rounds. This means that you cannot exceed a workload of 20 MCs in the semester.
- The minimum semestral workload is 18 MCs.

As with semester 1, students with low CAP are advised to space-out your modules evenly. You may even want to consider dropping one of the pre-allocated modules. Please email me regarding this (dropping of pre-allocated module).

**NOTE 5:** You are advised not to overload by taking more than the recommended workload. If you still wish to increase your semestral workload to above 20 or 25 MCs, you need to email the following information to your Year 3 Coordinator Dr Rajesh eleraje@nus.edu.sg, cc me cegcwn@nus.edu.sg:

i. Total MCs you planned to take in sem 2
ii. Supporting reasons for exceeding maximum workload in sem 2
iii. Sem 2 workplan (module code, title and MCs for the respective modules)
iv. Personal details (name, student ID., course code i.e. CEG3, current CAP)

Please note that even if you are approved to take extra MCs, you can only select module (for the ‘extra’ MCs) from Round 3 (6 Jan) onwards.

3. **Tutorial and Lab Registration**

<table>
<thead>
<tr>
<th>Module</th>
<th>Tutorial</th>
<th>Lab</th>
</tr>
</thead>
<tbody>
<tr>
<td>CG2023</td>

<td>EE4204</td>
<td>Packaged lecture &amp; tutorial - ‘tied’</td>
<td>To be arranged offline by</td>
</tr>
<tr>
<td></td>
<td></td>
<td>lecturers</td>
</tr>
</tbody>
</table>

**Note:** Requests for tut/lab change will NOT be entertained after add/swap online (18 Jan).

4. **CEG Technical Electives**

If you fulfil the respective CS/EE-coded module’s pre-requisite(s), you may register via ‘Select Module’ from Round 1 onwards.

Note: IF any timetable clash, please give higher priority to core modules. Also, only students who have attained level 3 standing i.e. tagged as ‘CEG3’ based on accumulated number of MCs, may select TEs from Round 0.

You are encouraged to read modules hosted by CS/ECE which are listed as Technical Electives (TEs) under the six CEG concentrations.
Cut and paste from TE page, “... These modules may come from any of the concentrations. While there is no necessity, students may opt to focus in a particular concentration. To do so, a student should read at least 16 MCs of technical electives from the same concentration.” Please note that reading at least 16 MCs of TEs in the same concentration does NOT constitute formal requirements for 'specialisation', so, it will NOT be reflected in the transcript or degree scroll. Nonetheless, to encourage students to read modules listed under the six CEG concentrations, students who passed at least 16 MCs of TEs from the same concentration will be awarded a certificate upon request. Please look out for the email blast in your graduating semester (in March or Sept) and respond by the stipulated deadline.

If you are unable to secure a TE in Round 0, you may:
   a) try again in Round 1 (29 Dec), and/or Round 2 (3 Jan), and/or
   b) try again in Round 3 (6 Jan), when leftover quotas merged (if applicable), and/or
   c) submit appeal [Type: “Unable to secure module] in/after Round 3.

Please do not email me/module host department to appeal/request for pre-allocation of CS/EE-coded TEs; not possible. Please be flexible in your choice of TEs.

5. General Education Modules (GEM) and Unrestricted Elective Modules (UEM)
Students who wish to read GEM and/or UEM have to ensure that the timetables of those modules do NOT clash with the timetable (lect, tut, lab AND exam) of their core modules. You can Select Module for these GEM and/or UEM from Round 2.

6. Important Websites
Please refer to the following websites for important information:

- **CEG Third Year Students website**
- **Programme Requirements and Technical Elective Rules** [A similar briefing for AY19 intake will be conducted around Feb.]
- **S/U Option Matters**
- **CEG Recommended Study Schedules**
- **AFG/FFG Checklists**
- **Examination Timetable**: Please check for timetable/examination clashes using NUSMods before selecting your modules.

For enquiries, email me at cegcwn@nus.edu.sg. You are reminded to check and clear your NUSNET email regularly. Do note that 30 Dec and 31 Dec are University-declared holidays, so please allow some time for us (i.e. the respective offices) to process/reply. Please do Not send duplicate emails to different recipients separately.

For ease of correspondence, please retain the email history and sign-off with your name and student ID (which is required to retrieve your record via ModReg). FYI, emails sent from students’ personal email accounts have been (randomly) routed to my spam/junk folder (which I don’t check).

Regards
Winnie

Important: This email is confidential and may be privileged. If you are not the intended recipient, please delete it and notify us immediately; you should not copy or use it for any purpose, nor disclose its contents to any other person. Thank you.
