Subject: Important Announcements for CEG3 Students - Sem 2, AY21/22  
Importance: High

This email is meant for CEG3 students of AY19 intake.

Dear CEG3 Students,

Please note the following important announcements regarding module registration:

1. Module Registration via ModReg
Module registration is done via ModReg@EduRec (myEduRec > Academics > Module Registration).  
- If you still haven’t, refer to the Academic Plan Declaration page (and email below), and complete your academic plan declaration 24 hours before accessing ModReg.  
Note: It is Not necessary to declare your preferred CEG concentration via ‘Specialisation’ or ‘Tracks’ (Both are not applicable to CEG). Anyway, CEG students will not/should not be able to select either in ModReg as they are not configured for student’s selection. For ‘Specialisation’, there are only two specialisations applicable for CEG (AY17 intake & after) for which application (outside APAD) has already closed in June. The next round will likely be around June 2022.

- Please refer to the ModReg User Guide and/or Videos, to learn how to use the ModReg.  
- Do note the various dates for each module selection round. Round 0 of ‘Select Modules’ will start tomorrow, 7 Dec 2021 (Tues).  
- Refer to the ModReg website for the detailed information of how the rules-driven, priority-based allocation work.

2. Core modules
Refer to the recommended schedule (as per your intake year to NUS). If you fulfil the respective core module’s pre-requisite(s), please register/‘Select Modules’ from Round 0 onwards.

<table>

<tr>
<td>CS3230</td>
<td>Select Tut/Lab on 11 Jan</td>
<td>N.A.</td>
</tr>
<tr>
<td>EE4204</td>
<td>Packaged lecture &amp; tutorial - ‘tied’</td>
<td>To be arranged offline by lecturers</td>
</tr>
<tr>
<td>EG2401A</td>
<td>Select Tut/Lab on 11 Jan</td>
<td>N.A.</td>
</tr>
</tbody>
</table>

- CG4002 (8 MCs) is timetabled as Lect (instead of Lab), so that the students may be grouped after the ‘Select Modules’ rounds. Students are Not allowed to co-read CG4002 while on ATAP/IA, so if you are on ATAP/IA, please do Not select this intensive (project) module. Due to safe management measures (SMM), a) there is a strict cap on total enrolment. If necessary, after Round 0, five places will be added for Round 1. If keen to read CG4002 in Sem 2, AY21/22, please select CG4002 in Round 0, else latest by Round 1. b) and also the nature of the project, the coordinator informed that students Must be in groups of five. As such, it would be administered based on first-come-first-served basis. If the final enrolment is not in multiples of five, based on the time(stamp) of registration, affected student(s) will have to drop the module and take in subsequent semester.

- CEG students (AY17 – AY20 intakes) use CS2101 (or CS2101-equivalent module for CEG students in DDP/RVRC/USP) to fulfil EG2401A’s prerequisite, and not ES1531/ES2531 (for other Engrg students). If any queries/reading EG2401A before/after IA, please refer to OUP wiki page, else email OUP/ENG ModReg Enquiries engbox28@nus.edu.sg directly.
NOTE 1: It is the students' responsibility to ensure there are no clashes in timetable (lecture, tutorial and lab) for all the modules. Students are Not allowed to read modules with clashing timetable (be it lect, tut, lab and/or exams).

NOTE 2: Applicable for students who have not passed Year 1 and/or 2 core modules

<table>
<thead>
<tr>
<th>Module</th>
<th>Recommended Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>CG2023</td>
<td>Only offered once per academic year, in semester 2. Select Module (preferred P&amp;X group) yourself in Round 0</td>
</tr>
<tr>
<td>CG2027</td>
<td>Will only be available from Round 1 (29 Dec). For Round 0, please manually reserve its lecture on Tuesdays 9-12nn, in mini-semester 2A.</td>
</tr>
<tr>
<td>Other CEG core modules</td>
<td>Select Module in Round 0. If a particular module is not available, email me for further instructions. You are highly recommended to read/repeat the year 1 &amp; 2 core/fundamental modules ASAP. For CG2271 or CS-coded core modules, please check with Mr Low <a href="mailto:lowmb@nus.edu.sg">lowmb@nus.edu.sg</a> directly.</td>
</tr>
</tbody>
</table>

NOTE 3: Workload Policy
- For students with a CAP of more than or equal to 2.0, the maximum workload (pre-allocated AND selected modules) is 23 MCs for Rounds 1 and 2, and 25 MCs for Round 3. This means that students can select up to 23 MCs (inclusive of pre-allocated modules) for Rounds 1 & 2, and up to 25 MCs from Round 3 onwards.
- For students with a CAP of less than 2.0, the maximum semestral workload is 20 MCs for all selection rounds. This means that you cannot exceed a workload of 20 MCs in the semester.
- The minimum semestral workload is 18 MCs.

NOTE 4: You are advised not to overload by taking more than the recommended workload. If you still wish to increase your semestral workload to above 20 or 25 MCs, please email the following information to your Year 3 Coordinator Dr Rajesh eleraje@nus.edu.sg, cc me cegcwn@nus.edu.sg:
   i. Total MCs you planned to take in sem 2
   ii. Supporting reasons for exceeding maximum workload in sem 2
   iii. Sem 2 workplan (module code, title and MCs for the respective modules)
   iv. Personal details (name, student ID, course code i.e. CEG3, current CAP)

Please note that even if you are approved to take extra MCs, you can only select module from Round 3 (6 Jan) onwards.

3. CEG Technical Electives
If you fulfil the respective CS/EE-coded module’s prerequisite(s), you may Select Module from Round 0 onwards.

Note: IF any timetable clash, please give higher priority to core modules. Also, only students who have attained level 3 standing i.e. tagged as ‘CEG3’ based on accumulated number of MCs, may select TEs from Round 0.

You are encouraged to read modules hosted by CS/ECE which are listed as Technical Electives (TEs) under the six CEG concentrations.

Cut and paste from TE page, “... These modules may come from any of the concentrations. While there is no necessity, students may opt to focus in a particular concentration. To do so, a student should read at least 16 MCs of technical electives from the same concentration...”

Please note that reading at least 16 MCs of TEs in the same concentration does NOT constitute formal requirements for 'specialisation', so, it will NOT be reflected in the transcript or degree scroll. Nonetheless, to encourage students to read modules listed under the six CEG concentrations, students who passed at least 16 MCs of TEs from the same concentration will be awarded a certificate upon request. Please look out for the email blast in your graduating semester (in March or Sept) and respond by the stipulated deadline.
If you are unable to secure a TE in Round 0, you may:
a) try again in Round 1 (29 Dec), and/or Round 2 (3 Jan), and/or
b) try again in Round 3 (6 Jan), when leftover quotas merged (if applicable), and/or
c) submit appeal [Type: “Unable to secure module] in/after Round 3.

Please do not email module host department or me to appeal/request for pre-allocation of CS/EE-coded TEs; not possible. Please be flexible in your choice of TEs.

4. General Education Modules (GEM) and Unrestricted Elective Modules (UEM)
Students who wish to read GEM and/or UEM have to ensure that the timetables of these modules do NOT clash with the timetable (lecture, tutorial, lab AND exam) of their core modules.
Please refer to [GE website] for more details. You can Select Module for these GEM and/or UEM from Round 2.

5. Important Websites
Please refer to the following websites for important information:
- CEG Third Year Students website
- Programme Requirements and Technical Elective Rules
- S/U Option Matters
- AFG/FFG Checklists
- Examination Timetable: Please check for timetable/examination clashes using [NUSmods] before selecting your modules.

For enquiries, email me at cegcwn@nus.edu.sg. Do note that 30 Dec and 31 Dec are University-declared holidays, so please allow some time for us (i.e. the respective offices) to process/reply. Please do Not send duplicate emails to different recipients separately.

You are reminded to check and clear your NUSNET email regularly. For ease of correspondence, please retain the email history and sign-off with your name and student ID (which is required to retrieve your record via ModReg). FYI, emails sent from students’ personal email accounts have been (randomly) routed to my spam/junk folder (which I don’t check).

Regards
Winnie
