This email is meant for CEG4 students (from AY18 direct, AY18 poly and AY19 poly intakes, who have passed at least 112 MCs to-date).

Dear CEG4 Students,

Please take note of the following important announcements regarding modules registration:

1. Module Registration via ModReg
Module registration is done via ModReg@EduRec (myEduRec> Academics > Module Registration).
- If you still haven’t, refer to the Academic Plan Declaration page (and email below), and complete your academic plan declaration 24 hours before accessing ModReg.

Note:
It is Not necessary to declare your preferred CEG concentration via ‘Specialisation’ or ‘Tracks’ (Both are not applicable to CEG). Anyway, CEG students will not/should not be able to select either in ModReg as they are not configured for student’s selection.

- Please refer to the ModReg User Guide and/or Videos, to learn how to use the ModReg.
- Do note the various dates for each module selection round. Round 0 of ‘Select Modules’ will start tomorrow, 7 Dec 2021 (Tues).
- Refer to the ModReg website for the detailed information of how the rules-driven, priority-based allocation work.

a) Final Year Project (FYP) - CG4001 BEng Dissertation OR CG4003 Advanced Project and Internship
CG4001/CG4003 has been pre-allocated to students who are continuing/starting 12 MCs FYP. Please verify via ModReg. If otherwise, please inform me.

b) EG2401A Engineering Professionalism
CEG students use CS2101* (twinned with CS2113T) to fulfil EG2401A’s perquisite, and not ES1531/ES2531 (for other Engrg students).
[*Or CS2101-equivalent module for CEG students in DDP/RVRC/USP]

If you have not fulfilled EG2401A (a Major requirement), please refer to OUP wiki page; then Select Module from Round 1 (29 Dec) onwards, and Select Tut on 11 Jan. If any queries, please email OUP/ENG ModReg Enquiries engbox28@nus.edu.sg directly.

c) Other Upper Year Core Modules – CG4002 and EE4204
If you fulfil the respective perquisites, register/Select Module from Round 0 onwards.

Note: CG4002 (8 MCs) is timetabled as Lect (instead of Lab), so that the students may be grouped after the ‘Select Modules’ rounds. Students are Not allowed to co-read CG4002 while on ATAP/IA, so if you are on ATAP/IA, please do Not select this intensive (project) module. Due to safe management measures (SMM),
a) there is a strict cap on total enrolment. If necessary, after Round 0, five places will be added for Round 1. If keen/need to read CG4002 in Sem 2, AY21/22, please select CG4002 in Round 0,
b) and also the nature of the project, the coordinator informed that students Must be in groups of five. As such, it would be administered based on first-come-first-served basis. If the final enrolment is not in multiples of five, based on the time(stamp) of registration, affected student(s) will have to drop the module and take in subsequent semester.
d) Other Core Modules
If you have not pass any other core modules, Select Module from Round 0 onwards. **Do NOT delay such module any further.** If a particular module is not available, email me for further instructions.

<table>
<thead>
<tr>
<th>Module</th>
<th>Recommended Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>CG2023</td>
<td>Only offered once per academic year, in semester 2. Select Module (preferred P&amp;X group) yourself in Round 0</td>
</tr>
<tr>
<td>CG2027</td>
<td>Will only be available from Round 1 (29 Dec). For Round 0, please manually reserve its lecture on Tuesdays 9-12nn, in mini-semester 2A.</td>
</tr>
<tr>
<td>Other CEG core modules</td>
<td>Select Module in Round 0. For CG2271 or CS-coded core modules, email Mr Low <a href="mailto:lowmb@nus.edu.sg">lowmb@nus.edu.sg</a> directly.</td>
</tr>
</tbody>
</table>

e) CEG Technical Electives
If you fulfil the respective CS/EE-coded module’s pre-requisite(s), you may Select Module from Round 0 onwards. **Note: IF any timetable clash, please give higher priority to core modules.**

You are encouraged to read modules hosted by CS/ECE which are listed as Technical Electives (TEs) under the six CEG concentrations.

Cut and paste from TE page, “… These modules may come from any of the concentrations. While there is no necessity, students may opt to focus in a particular concentration. To do so, a student should read at least 16 MCs of technical electives from the same concentration…”

Please note that reading at least 16 MCs of TEs in the same concentration does NOT constitute formal requirements for 'specialisation', so, it will NOT be reflected in the transcript or degree scroll. Nonetheless, to encourage students to read modules listed under the six CEG concentrations, students who passed at least 16 MCs of TEs from the same concentration will be awarded a certificate **upon request.** Please look out for the email blast in your graduating semester (in March or Sept) and respond by the stipulated deadline.

If you are unable to secure a TE in Round 0, you may:
   a) try again in Round 1 (29 Dec), and/or Round 2 (3 Jan), and/or
   b) try again in Round 3 (6 Jan), when leftover quotas merged (if applicable), and/or
   c) submit appeal [Type: "Unable to secure module] in/after Round 3.

Please do not email me/module host department to appeal/request for pre-allocation of CS/EE-coded TEs; not possible. Please be flexible in your choice of TEs.

f) General Education Modules (GEM) and Unrestricted Elective Modules (UEM)
Students who wish to read GEM and/or UEM have to ensure that the timetables of those modules do NOT clash with the timetable (lect, tut, lab AND exam) of their core modules. You can Select Module for these GEM and/or UEM from Round 2.

g) Workload Policy
   - For students with a CAP of **more than or equal to** 2.0, the maximum workload (pre-allocated AND selected modules) is 23 MCs for Rounds 1 and 2, and 25 MCs for Round 3. This means that students can select up to 23 MCs (inclusive of pre-allocated modules) for Rounds 1 & 2, and up to 25 MCs from Round 3 onwards.
   - For students with a CAP of **less than** 2.0, the maximum semestral workload is 20 MCs for all selection rounds. This means that you cannot exceed a workload of 20 MCs in the semester.
   - The **minimum semestral workload** is 18 MCs.
   - You are advised not to overload (by taking more than the recommended workload). If you still wish to increase your semestral workload to **above 20 or 25 MCs**, you should email the following information to CEG Year 4 Coordinator Dr Colin Tan colintan@nus.edu.sg & cc me cegcwn@nus.edu.sg:
   i. Total MCs you planned to take in sem 2
ii. Supporting reasons for exceeding maximum workload in sem 2  
iii. Sem 2 workplan (module code, title and MCs for the respective modules)  
iv. Personal details (name, student ID., course code i.e. CEG4, current CAP, total MCs passed to date)

Please note that even if you are approved to take extra MCs, you can only select module (for the ‘extra’ MCs) from Round 3 (6 Jan) onwards.

As FYP of 12 MCs is a two-semester module, you should account for it as 6 MCs in your workload for semester 2, AY21/22.

2. Apply for Graduation (AFG)
If you are graduating at the end of Sem 2, AY21/22, please Apply for Graduation (AFG) via EduRec from 29 Dec 2021 – 21 Jan 2022 (Fri, Week 2).  
[Navigation after login: Self Service > Degree Progress/Graduation > Apply for Graduation].
Do check that you have fulfilled all requirements to graduate, using the AFG/FFG checklist (as per your intake year). For students who cannot AFG via EduRec due to whatsoever reasons, please flag to me.

3. Important Websites
You can refer to the following websites for important information
- CEG Final Year Students website
- AFG/FFG Checklists
- Programme Requirements and Technical Elective Rules
- Examination Timetable: Please check for timetable/examination clashes using NUSMods before selecting your modules.
- S/U Option Matters
For enquiries, email me at cegcwn@nus.edu.sg. Do note that 30 Dec and 31 Dec are University-declared holidays, so please allow some time for us (i.e. the respective offices) to process/reply. Please do Not send duplicate emails to different recipients separately.

You are reminded to check and clear your NUSNET email regularly. For ease of correspondence, please retain the email history and sign-off with your name and student ID (which is required to retrieve your record via ModReg). FYI, emails sent from students’ personal email accounts have been (randomly) routed to my spam/junk folder (which I don’t check).

Regards
Winnie

Important: This email is confidential and may be privileged. If you are not the intended recipient, please delete it and notify us immediately; you should not copy or use it for any purpose, nor disclose its contents to any other person. Thank you.
