Subject: Important ModReg Announcements for CEG4 Students - Sem 2, AY22/23
Importance: High

This email is meant for CEG4 students.

Dear CEG4 Students,

Please take note of the following important announcements regarding modules registration:

1. Module Registration via ModReg

Module registration is done via ModReg@EduRec ([myEduRec](#) > Academics > Module Registration).

- If you still haven't, refer to the [Academic Plan Declaration page](#) (and email below), and complete your academic plan declaration *24 hours before accessing ModReg*.

[It is Not necessary to declare your preferred CEG concentration via 'Specialisation' or 'Tracks'; both are not applicable to CEG. Anyway, CEG students will not/should not be able to select either in ModReg as they are not configured for student's selection. For 'Specialisation', application (outside APAD) has already closed.]

- Please refer to the [ModReg User Guide and/or Videos](#), to learn how to use the ModReg.

- Do note the various dates for [each module selection round](#). Round 0 of 'Select Modules' will start tomorrow, 6 Dec (Tues).

- Refer to the [ModReg website](#) for the detailed information of how the rules-driven, priority-based allocation work.

a) Final Year Project (FYP) - CG4001 BEng Dissertation OR CG4003 Advanced Project and Internship

CG4001/CG4003 has been pre-allocated to students who are continuing/starting FYP. Please verify via ModReg. If otherwise, please inform me.

b) EG2401A Engineering Professionalism

If you have not fulfilled EG2401A (a Major requirement), refer to [OUP wiki page](#) – Year 4 students Select Module from Round 2 (i.e. 3 Jan) onwards and Select Tut/Lab (for its tut) on 10 Jan.

CEG students use CS2101* (twinned with CS2113T) to fulfil EG2401A's prerequisite, and not ES1531/ES2531 (for other Engrg students).

[*Or CS2101-equivalent module for CEG students in DDP/RVRC/USP]

If any queries, please email OUP/CDE UG ModReg Enquiries cdebox28@nus.edu.sg directly.

c) Other Upper Year Core Modules – CG4002, CS3230 and EE4204

If you have not fulfilled any of the core module(s), select from Round 0 onwards. After you have successfully secured the module(s), where applicable, Select Tut/Lab on 10 Jan.

- CG4002 (8 MCs) is timetabled as Lect (instead of Lab), so that the students may be grouped after the 'Select Modules' rounds. Students are Not allowed to co-read CG4002 while on ATAP/IA, so if you are on ATAP/IA, please do Not select this intensive (project) module. Also,

a) there is a strict cap on total enrolment. If necessary, after Round 0, five places will be added for Round 1. If keen to read CG4002 in Sem 2, AY22/23, please select CG4002 in Round 0, else latest by Round 1.

b) due to the nature of the project, the coordinator informed that students Must be in groups of five. As such, it would be administered based on first-come-first-served basis. If the final enrolment is not in multiples of five, based on the time(stamp) of registration, affected student(s) will have to drop the module and take in subsequent semester.

d) Other Core Modules

If you have not pass any other core modules, Select Module from Round 0 onwards. **Do NOT delay such module any further.** If a particular module is not available, email me for further instructions.

Module	Recommended Action
CG2027 and CG2028	N.A.; due to curriculum changes for AY21 intake, both modules were only offered once this AY22/23, in sem 1.
CG2271	For CG2271 or CS-coded core modules, please check with Mr Low lowmb@nus.edu.sg or Ms Sim xjuan@nus.edu.sg directly.
CG3207	N.A.; only offered once per academic year, in sem 1.

e) CEG Technical Electives

If you fulfil the respective CS/EE-coded module's pre-requisite(s), you may Select Module from Round 0 onwards. **Note: IF any timetable clash, please give higher priority to core modules.**

You are encouraged to read modules hosted by CS/ECE which are listed as Technical Electives (TEs) under the [six CEG concentrations](#).

Cut and paste from TE page, "... These modules may come from any of the concentrations. While there is no necessity, students may opt to focus in a particular concentration. To do so, a student should read at least 16 MCs of technical electives from the same concentration..."

Please note that reading at least 16 MCs of TEs in the same concentration does NOT constitute formal requirements for '[specialisation](#)', so, it will NOT be reflected in the transcript or degree scroll. Nonetheless, to encourage students to read modules listed under the six CEG concentrations, students who passed at least 16 MCs of TEs from the same concentration will be awarded a certificate *upon request*. Please look out for the email blast in your graduating semester (in March or Sept) and respond by the stipulated deadline.

If you are unable to secure a TE in Round 0, you may:

- try again in Round 1 (28 Dec), and/or Round 2 (3 Jan), and/or
- try again in Round 3 (6 Jan), when leftover quotas merged (if applicable), and/or
- submit appeal [Type: "Unable to secure module] in/after Round 3.

Please do not email module host department or me to appeal/request for pre-allocation of CS/EE-coded TEs; not possible. Please be flexible in your choice of TEs.

f) General Education Modules (GEM) and Unrestricted Elective Modules (UEM)

Students who wish to read GEM and/or UEM have to ensure that the timetables of these modules do NOT clash with the timetable (lecture, tutorial, lab AND exam) of their core modules.

Please refer to [GE website](#) for more details. You can Select Module for these GEM and/or UEM from Round 2.

g) Workload Policy

- For students with a CAP of **more than or equal to** 2.0, the maximum workload (pre-allocated AND selected modules) is 23 MCs for Rounds 1 and 2, and 25 MCs for Round 3. This means that students can select up to 23 MCs (inclusive of pre-allocated modules) for Rounds 1 & 2, and up to 25 MCs from Round 3 onwards.

- For students with a CAP of **less than** 2.0, the maximum semestral workload is 20 MCs for all selection rounds. This means that you cannot exceed a workload of 20 MCs in the semester.

- The [minimum semestral workload](#) is 18 MCs.

- You are advised not to overload (by taking more than the recommended workload). If you still wish to increase your semestral workload to **above 20 or 25 MCs**, you should email the following information to **CEG Year 4 Coordinator Dr Colin Tan** colintan@nus.edu.sg & cc me cegcnw@nus.edu.sg:

- Total MCs you planned to take in sem 2

- ii. Supporting reasons for exceeding maximum workload in sem 2
- iii. Sem 2 workplan (module code, title and MCs for the respective modules)
- iv. Personal details (name, student ID, course code i.e. CEG4, current CAP, total MCs passed to date)

Please note that even if you are approved to take extra MCs, you can only select module (for the 'extra' MCs) from Round 3 (6 Jan) onwards.

As FYP of 12 MCs is a two-semester module, you should account for it as 6 MCs in your workload for sem 2, AY22/23.

2. Apply for Graduation (AFG)

If you are graduating at the end of Sem 2, AY22/23, please Apply for Graduation (AFG) via [EduRec](#) from 28 Dec 2022 – 20 Jan 2023.

[Navigation after login: [Self Service](#) > [Degree Progress/Graduation](#) > [Apply for Graduation](#)].

Do check that you have fulfilled all requirements to graduate, using the [AFG/FFG checklist](#) (as per your intake year). For students who cannot AFG via EduRec due to whatsoever reasons, please flag to me.

3. Important Websites

You can refer to the following websites for important information

- [CEG Final Year Students website](#)
- [AFG/FFG Checklists](#)
- [Programme Requirements and Technical Elective Rules](#)
- [Examination Timetable](#): **Please check for timetable/examination clashes using [NUSMods](#) before selecting your modules.**
- [S/U Option Matters](#)

You are reminded to check and clear your NUSNET email regularly. For ease of correspondence, please retain the email history and sign-off with your name and student ID (which is required to retrieve your record). FYI, emails sent from students' personal email accounts have been (randomly) routed to my spam/junk folder (which I don't check).

Regards
Winnie

Subject: [NUS RESTRICTED] MODULE REGISTRATION EXERCISE (ROUND 0) FOR SEMESTER 2 OF AY2022/2023

MODULE REGISTRATION EXERCISE (ROUND 0) AY2022/23 SEMESTER 2

For Existing and Returning Students

1 Module Registration (ModReg) Round 0 From 6 Dec 9am to 7 Dec 5pm

You will be notified via email and uNivUS when your module allocation outcome is posted at ModReg@EduRec > "View My Classes"
(Navigation: myEduRec (edurec.nus.edu.sg) > Academics > Module Registration)

Students to note:

The processing of selected and allocated modules from Round 0 would be on the assumption that students have passed the modules taken in Semester 1 of AY2022/2023. The respective departments reserve the right to drop any allocated modules on your behalf, should you fail to meet the requirements after the release of your examination results for Semester 1 of AY2022/2023.

Module and Timetable Information at nusmods.com

Students enrolled in e-learning classes must adhere to timetable
Do not select e-learning classes with timetable clash or request for timetable clash waiver

Resumption of Face-to-Face (F2F) classes

In alignment with the national stance to return to normalcy as a COVID-19 resilient nation, the University intends to resume face-to-face (F2F) classes for all modules whenever possible and appropriate, to the extent allowed by prevailing Safe Management Measures.

Outstanding Fees Must Be Paid 3 Working Days Before ModReg Starts

Otherwise students cannot participate in ModReg

More ModReg Information and Schedule at www.nus.edu.sg/ModReg/

2 Academic Plan Declaration From 2 Dec 9am to 7 Dec 5pm

(Navigation: myEduRec > Academics > Acad Plan Appln/Declaration)

To be Completed At Least 24 Hours Before ModReg Participation

For you to be assigned priority for ModReg module choices
Academic Plan Declaration cannot be changed within the same semester

User Guide at

[www.nus.edu.sg/ModReg/docs/User-Guide-\(Std\)_AcadPlan_Decln.pdf](http://www.nus.edu.sg/ModReg/docs/User-Guide-(Std)_AcadPlan_Decln.pdf)
Contact your home faculty/department for queries on Academic Plan Declaration requirement

3 Honour Declaration for Undergraduates Who Returned from Student Exchange Programme (SEP) - To Upgrade ModReg Seniority, E.g., From Year 2 to Year 3

For those awaiting Partner University's transcript for official credit transfer

Declaration May Be Made for SEP Modules Enrolled and Passed

Modular Credits (MCs) from completed SEP modules will be added to cumulative MCs, to assign your ModReg Seniority priority based on promotion rules for next level of studies
Declaration is interim measure

You must complete the official credit transfer process to fulfil your degree requirement

Step-By-Step Guide at www.nus.edu.sg/ModReg/docs/honour-declaration.pdf

Students who make false declarations may be subject to disciplinary actions
