Subject: Important CourseReg Announcements for CEG3 Students - Sem 2, AY25/26

This email is intended for CEG3 students from AY24 Poly intake.

Dear CEG3 Students,

Please take note of the following important announcements regarding courses registration:

1. Course Registration via CourseReg
Course registration is done via CourseReg@EduRec (myEduRec > Academics > Course Registration).
- Refer to the Academic Plan Declaration page (and email below), and complete your academic plan declaration from tmr (30 Dec 2025), AND *24 hours before accessing CourseReg*.
[It is Not necessary to declare your preferred CEG concentration via 'Specialisation' or 'Tracks'; both are not applicable to CEG. Anyway, CEG students will not/should not be able to select either in CourseReg as they are not configured for student's selection. For 'Specialisation', application (outside APAD) has already closed. There is No option to drop/withdraw from specialisation/Minor, until your final semester.]

- Please refer to the CourseReg User Guide and/or Videos, to learn how to use the CourseReg.
- Do note the various dates for each course selection round. Round 1 of 'Select Courses' will start on 2 Jan 2026 (Fri).
- Refer to the CourseReg page for the detailed information of how the rules-driven, priority-based allocation work.

2. Core courses
As per your recommended schedule, CG2023 and CG2271 will be pre-allocated to you (by respective course host) if you fulfilled their pre-requisite(s). Please verify via CourseReg on 2 Jan (Round 1).
For EE2211, PF1101A and [CDE2501 or PC1201], refer to OUP wiki page and Select Course from Round 1 onwards. *Please do not delay PC1201/Physics bridging course any further.*

NOTE 1: *It is the student's responsibility to ensure no timetable clash for all courses. Students are Not allowed to read courses with clashing timetable (be it lect, tut, lab and/or exams).*

NOTE 2: Applicable for students who have <u>not</u> passed Year 1 and/or 2 core courses
Please Select Course yourself from Round 1. If a particular course is not available, email me for further instructions. You are highly recommended to read/repeat the year 1 & 2 core/fundamental courses ASAP.
- For CG2111A, CG2271 or CS-coded core courses, check with Mr Low lowmb@nus.edu.sg directly.
- For common curriculum courses administered by OUP, refer to OUP wiki page. If any queries, please email OUP/CDE UG CourseReg Enquiries cdebox28@nus.edu.sg directly.

NOTE 3: For all enrolled courses, please register for a tut and/or lab (if applicable) yourself, via Select Tut/Lab Round 1 (13 Jan).

NOTE 4: Workload Policy
- For students with a GPA of more than or equal to 2.0, the maximum workload (pre-allocated AND selected course) is 23 units for Rounds 1 & 2. From Round 3, you will be able to see your max number of units (which is dependent on your GPA) when you click on 'Select Courses' in CourseReg.

GPA	Max Workload (Rd 1 & Rd 2)	Max Workload (Rd 3 onwards)
4.5 – 5.0	23 units	32 units
4.0 – 4.49	23 units	28 units
3.0 – 3.99	23 units	26 units
2.0 – 2.99	23 units	24 units

Please evaluate the maximum workload you can handle according to your capabilities, taking into consideration that the CEG core courses generally have a heavy workload. It is Not necessary to take up to the maximum workload, especially if you find it difficult to manage.

- If your GPA is less than 2.0, the maximum semestral workload is 20 units for all selection rounds i.e. you cannot exceed 20 units workload in the semester.
- The minimum semestral workload is 18 units.

NOTE 5: You are advised not to overload by taking more than the recommended workload. If you have strong reasons to appeal beyond your maximum workload, please email the following information to **CEG Year 3 Coordinator Dr Sangit** elebox53@nus.edu.sg, **cc me** cegcwn@nus.edu.sg:
   i.   Total units you planned to take in sem 2
   ii.   Supporting reasons for exceeding maximum workload in sem 2
   iii.   Sem 2 workplan (course code, title and units for the respective courses)
   iv.   Personal details (name, student ID, degree level code i.e. CEG3, current GPA)

Please note that even if you are approved to take extra units, you can only select course from Round 3 (8 Jan) onwards.

3. General Education (GE) and Unrestricted Elective (UE)
Students who wish to read GE and/or UE have to ensure that the timetables of these courses do NOT clash with the timetable (lect, tut, lab AND exam) of their core courses.
Please refer to GE webpage (AY21 intake and after) for more details. You can Select Course for these GE and/or UE from Round 2.

i. The GE requirement consists of 6 pillars:
● Communities and Engagement; refer to more details on C&E pillar here – as much possible, complete C&E by your 5th semester/graduating semester minus 1.
● Cultures and Connections (courses with prefix **GEC**)
● Critique and Expression (ES2631)
● Data Literacy (GEA1000)
● Digital Literacy (CS1010)
● Singapore Studies (GESS)

ii. For UE (40 units), you are encouraged to read courses hosted by CS/ECE which are listed as Technical Electives (TEs) under the six CEG concentrations, as UE. If you fulfil the respective CS/EE-coded course's pre-requisite(s), you may Select Course from Round 2 or Round 1 onwards, respectively. Note: IF any timetable clash, please give higher priority to core courses.

Cut and paste from CEG AY21 TE page,
"…
AY2021/22 intake and after: CEG students are highly recommended to read more technical electives and use/count them towards fulfilling Unrestricted Elective (UE). To achieve depth, you should read at least 8 units of depth electives. While there is no necessity, students may opt to focus in a particular concentration. To do so, a student should read at least 16 units of technical electives from the same concentration e.g. 1B+3D or 2B+2D, of which at least 8 units should be read at NUS. Students will have to ensure that they have read the prerequisite course(s) of the depth courses. …"

Please note that reading at least 16 units of TEs in the same concentration does NOT constitute formal requirements for 'specialisation', so, it will NOT be reflected in the transcript or degree scroll. Nonetheless, to encourage students to read courses listed under the six CEG concentrations, students who passed at least 16 units of TEs (with at least 8 units of Depth TEs) from the same concentration will be awarded a certificate *upon request*. Please look out for the email blast in your graduating semester (i.e. in March or Sept) and respond by the stipulated deadline.

If you are unable to secure a TE in Round 2 or 1, you may:
  a) try again in subsequent round, and/or
  b) submit appeal - Type: Unable to secure course - from 10 Jan.

Please do not email course host department or me to appeal/request for pre-allocation of CS/EE-coded TEs; not possible. Please be flexible in your choice of TEs.

- If you are keen to read CDE2000 (as UE), refer to OUP's Wiki page on CDE2000. If any queries, email cdebox28@nus.edu.sg directly.

4. Important Websites
You can refer to the following websites for important information:
- CEG Third Year Students website
- Programme Requirements: A briefing for CEG AY24 intake on curriculum matters (and internship) will be conducted in Feb 2026
- S/U Option Matters
- AFG/FFG Checklists: PS: revised as of 10Jun25
- Examination Timetable: **Please check for timetable/examination clashes using NUSMods before selecting your courses.**
- S/U Declaration and Information

You are reminded to check and clear your NUSNET email regularly. For ease of correspondence, please retain the email history and sign-off with your name and student ID (which is required to retrieve your record). FYI, emails sent from students' personal email accounts have been (randomly) routed to my spam/junk folder (which I don't check).

Regards
Winnie
